

**“FIT serves as the extra layer that makes my job easier.”**

**Devin Ashmore** IT Director • Wilson, Turner, Kosmo LLC

## The Challenge

“We were dealing with dated and aging hardware and needed help navigating the shift from that. We also needed a lot of consulting, expertise, and support to get us up to date.

Also, I’m just one person. What happens when I’m out of office? How do we handle projects that require more manpower? If this project creates downtime, how will we address that? What happens if we get audited for compliance?”

**Aging Hardware**

**One-Man Team**

**Lack of Answers**

**Compliance Worries**

**The Solution** ↓

# The Solution

"FIT makes my job easier. If I'm not in the office, I don't need to worry about our infrastructure if something goes wrong.

When projects pile up and there's not enough time in the day to get them done, FIT has my back. Even if we go over on our hours, it's worth it to know that we're taken care of.

We get audited all the time, so when we do, I can point to the systems we have in place to protect our clients. By working with FIT, I've got a whole firm we can call at any time to help us stay in compliance."
